

## Additional Information and Resources in Sacramento County

The list of used oil recycling centers on the last page of the student lesson book includes state-certified locations in the Elk Grove Unified School District area.

Curbside collection service for used oil and filters is available to customers who have individual trash service in Elk Grove. (Note that this is not available to residents of multifamily housing with dumpster service.) Customers must use the oil container provided, which may be picked up at City Hall or requested from the hauler Allied Waste at (916) 635-2500. The container should be set next to (not in) the recycling carts on the regular service day. An empty container will be left by the hauler when the full one is picked up.

Most other areas of the County have similar services, though it varies with different garbage service providers: some provide containers for oil and zip-lock bags for oil filters. Some require a phone call to schedule, while others only require set-out on your regular recycling day. Check the web sites or phone numbers below for details. There is also other recycling information at the local websites.

The Household Hazardous Waste Drop Off Area is located at the North Area Recovery Station, 4450 Roseville Road in North Highlands, and is open Tuesday, Thursday, Saturday and Sunday from 8:30 AM to 4:00 PM. Used oil and filters as well as other toxic materials are accepted from residents. There is no charge except for drop-off of computer monitors and televisions. For more information and lists of accepted materials, call 916-875-5555 or visit [www.sacgreenteam.com/hazardous/residents.htm](http://www.sacgreenteam.com/hazardous/residents.htm)

For other recycling information in Sacramento County, visit [www.sacgreenteam.com/recycling.htm](http://www.sacgreenteam.com/recycling.htm). The tool bar at the left includes a link called "How do I recycle?" which has lots of good information on how to recycle a wide variety of materials.
